

Descriptive Wireframe Document

Rationale: What are the major issues with the existing page and why have you chosen to modify them? Use the concepts we've learned so far such as Colour Theory, C.R.A.P. design theory, and Accessibility (font, alt tags, contrast, etc) to inform your rationale. Your rationale should be about 250 words.

The website's main image contrasts with the text and the white colour of the text blends with the image. The website could also be structured in a more presentable way. The interactive links at the top should be underlined to indicate it's a link. Reviews of the restaurant should also be included. The position of the menu should also be placed in a more obvious spot as it is one of the most important elements of the main
